

Creating a Transportation Vision for the Niagara to GTA Corridor

The second Community Advisory Group (CAG) meeting regarding the Niagara to GTA Corridor Planning and EA Study was held on November 29, 2007 in Grimsby.

At this meeting, breakout discussions were conducted to brainstorm a vision for the transportation system in the Niagara to GTA Corridor. The following highlights the input provided by the CAG:

Vision for the Transportation System:

- World class transportation system
- Environmentally sustainable
- Multimodal system
- Options for travel (choice of modes)
- Financially efficient and viable
- Recognizes social equity
- Safe system
- Accessible
- Increased public transit
- Live/work within communities
- Better use of existing infrastructure

Please provide your views, thoughts and reactions to the input offered by the CAG and how these elements may be modified or expanded upon to characterize the future vision for the Niagara to GTA Corridor.
